RE:

- 1) Pre-suit Demand for \$54.724,800 Million USD, Compensation Provided Within 30 Days for Injuries Sustained, Committed By the Federal Reserve Bank (FRB) Enterprise, From 3/2021 to Present, or Be Sued for A) Racketeering; B) Wrongful Death; & C) Survival Action Claims,
- 2) Pre-suit Demand for Defendants' Records on Every Investment Corporations Partnered With and Owned Outright By Chase Manhattan Investment Holdings, LP.; Chase Manhattan BSP Holdings Corp.; & Rothschild & Co. Continuation Holdings

AG., From 1/2000 to Present (Inheritance was FRB Employee Stolen/Invested in Multiple FRB Funds 12 Years Before Mother's 2012 Murder), and

3) Pre-suit Demand for the Full Names of the Actual/Real Owners of All Three (3) Corporations Cited Above.

David, Alexandre, Lynn, Hannah, Kristalina, Sharon & John:

We spoke many times John in 2020 about your banking enterprise, which includes all the owners of the Federal Reserve Bank (FRB); World Bank (WB); and International Monetary Fund (IMF); its elected and appointed managers, directors, presidents; along with their subordinate RICO perpetrating participants. Enclosed is my 12/2020 letter to you, which should jog your memory of who I am and what RICO predicate acts you ordered committed on me and my wife using your FRB enterprise. Listed below are my family's many FRB sanctioned court case losses, numbered 1 through 8, which illegally profited the FRB enterprise, through its mixed market, investment corporations. There're over 10 million of them catering to every type of consumer in every sector of the world. For over 12 years, FRB elected and appointed managers along with their subordinate agents, have intentionally injured me and my family physically, monetarily and emotionally, in violation of our state and federal constitution rights, to profit the FRB enterprise in violation of the RICO Act. **RICO claims survive the death of parties injured because it's remedial and not penal in nature. United States v. Private Sanitation Indus. Ass'n of Nassau/Suffolk, Inc., 914 F. So heirs can sue RICO participants for racketeering while having concurrently been involved in murdering their relatives, without a time limit. G. INST. 4.112-13 (F. de Zulueta trans., 1946) (addressing survival); id. at 6.189-215 (discussing the scope of delicts for multiple damages); Title 18, Chapter 232, Section 3663; and United States v. Payne, 591 F. 3d 46, 57-59 (2d Cir. 2010).**

John, all the FRB owners require their elected and appointed officials to have their subordinate agents (third party hirelings) within judicial and executive branches of government, officially launder and misappropriate consumers' stolen moneys back to their much needed agent thieves (ATs), thus permitting them to continue saving, spending or investing the loot within the fully owned and controlled FRB world economy, where FRB mixed market, investment corporations, provide goods and services to every type of consumer, in every type of industry, in every sector under the sun, using supercomputer enhanced FRB Point-of-Sale (POS) Systems to acquire and transfer hot spoils instantly within FRB banking/investment networks. **VERY SLICK!** And if any injured consumer, no pigeon, objects to having been plucked by filing a lawsuit against the agent thief (AT), their defense attorney will immediately find out if there's a prior court case ruling anywhere in any circuit, where a judge defrauded the plaintiff as either state governor, or federal circuit director, sanctioned agency policy! If so, they'll be obligated as an officer of the court to intentionally commit the government, no enterprise, function of blatantly filing a false dismissal motion as an accomplice to the presiding judge's conspiracy to defraud the plaintiff (highly illegal in federal court). Then when the presiding judge officially grants and files his or her bogus ruling, he or she not only commits honest services fraud (HSF) under Title 18, Chapter 63, Section 1346, but mail (interstate carrier) and/or wire (interstate Internet) fraud, respectively violations under Title 18, Chapter 63, Sections 1341 & 1343. If any FRB paid judge refuses to do this much for their FRB enterprise, he or she will be demoted and eventually replaced by the governor or circuit director for a prior consumer complaint made. 10s of thousands of consumer complaints are filed yearly on corrupt attorneys and judges, which state governors and federal circuit directors, cover-up as standard agency policy! Bogus/void agent rulings are officially filed to keep consumers' stolen, laundered, or misappropriated moneys owed, permanently

within FRB circulation. The FRB enterprise is composed of millions of mixed market, investment corporations in every country which manufactures, distributes and sells just about every material, commodity, good and service within every industry and sector on the planet, as it profits from ATs/consumers using its: 1) Sheer global economics; 2) subordinate agents in the field defrauding consumers; and 3) hot intergovernmental transfers; plus 4) multiple agency contracts per agency, used to support all FRB agencies and agents with hot support funding, some used as agent bribes. And in return, agencies submit hot FRB proceed payments to FRB banks, all within the FRB enterprise's owned and controlled global economy. The FRB enterprise is a **BEAST** of an illegal monopoly in violation of FTC regulations, for preventing some of its competitors from operating in the black, by price fixing, dividing markets and rigging bids. Thus it hinders both open (business/citizen-private) and closed (government-public) worldwide markets from operating freely. How quickly the FRB enterprise obtains agent laundered or misappropriated spoils, depends on what the ATs do with the loot after illegal rulings are concluded, but 95% of the time, they're already being used by the FRB enterprise due to: A) Immediate FRB merchant processing of ATs' illegal proceeds deposited within FRB circulation and B) FRB fractional-reserve loaning by FRB bank transfers. Both FRB deposits and transfers are immediately, due to linked FRB supercomputer banking/investment networks, for speed and accuracy.

Consequently, not much sum sufficient proof is needed to substantiate the fact that all FRB owners/principle-masters knowingly fund all their NCUA/FDIC administrators; agent cops; and agent judges in America as 1) benefactors (founders of the feast), by providing hot intergovernmental transfers and hot agency contract funding. All agencies in America obtain multiple types of hot FRB funding to pay for: Local/state and federal infrastructure maintenance costs; salaries and perks for its

banking administrators; its law enforcement agents (both executive branches); plus its judicial agents (judiciary branch), all operating out of every sector of America. And in return, the FRB principle-masters knowingly obtain, keep and use hot agency proceed payments as 2) beneficiaries who collect their recycled loot within their fully owned and invested in worldwide global economy which routes all stolen spoils home again and again, because they're invested in, and illegally control, EVERYTHING IN IT! **EXTREMELY SLICK!**

When NCUA/FDIC administrators, along with state and federal courthouse judges, launder or misappropriate consumers' stolen moneys to be permanently kept within FRB circulation, which also makes some consumers have to spend more of their moneys due to repurchases of the same goods and services owed to them by ATs, 95% of the initial banking transactions are electronically processed immediately by the FRB enterprise due to the sheer number of FRB mixed market, investment corporations (banks included), being in the millions per country! So if ATs 1) save the loot in bank accounts, it most likely will be within FRB branch banks, with the FRB enterprise able to use from 85% to 90% of the full amount immediately in loan moneys, with the transactions being illegal because the loaned moneys are hot, and the FRB enterprise was already constructively notified of this through one of its owners, that being you John! If the ATs 2) spend the loot in any market place, the full amount will most likely be acquired by the FRB enterprise through its multitude of investment corporations, with the transactions being illegal because the spent moneys are hot, and the FRB enterprise was already constructively notified of this through one of its owners, that being you John! If ATs 3) invest the loot, it most likely will be through an FRB enterprise investment service, so the FRB enterprise will be profiting itself and its agent thief (AT) clients, with the transactions being illegal because the invested moneys are hot, and the FRB enterprise was already constructively notified of this through

one of its owners, that being you John! And if some ATs 4) save the loot in mattresses, the FRB enterprise will be acquiring nothing, but it's still in violation of the RICO Act for: Its FRB owners being both the benefactors and beneficiaries of agency scams committed on consumers by: A) providing all agencies and agents (agent cops, agent judges and NCUA/FDIC agents) with support funding in the form of: Agent accommodations; agent salaries; and agent perks (bribes), with agents in return aiding and abetting in physical and monetary scams committed on consumers, while breaching their fiduciary duties to them; B) the FRB knowingly acquiring stolen spoils by accepting hot contract proceeds from agencies; C) the FRB knowingly acquiring ATs' stolen federal income and business tax moneys, initially provided to, respectively the IRS and state revenue departments, which the FRB owners respectively provide merchant processing services to for collecting hot moneys; D) the FRB turning a blind eye in stopping their agents from racketeering; by E) the FRB owners continuing to participate in agent racketeering, by providing agent support after being constructively notified of agents' participation in consumer scams which profits their FRB enterprise; F) without the FRB enterprise divesting a penny of the loot.

The FRB enterprise knowingly and intentionally provides hot intergovernmental transfers to every state governor and appointed director/president in America, who in turn uses some of the hot moneys as support payments on: 1) infrastructure maintenance costs for housing enterprise members; 2) salaries and perks for state and federal enterprise judicial agents; and 3) salaries and perk for city, county, state and federal enterprise agent cops operating as public safety officers throughout the country who A) physically injure consumers while also committing B) monetary laundering scams on them. So local/state agency personnel are paid their salaries and perks (bribes) using: C) Hot intergovernmental transfers from FRB to state governors, and from state to local governments when

needed (intrastate transfers); along with D) local/state hot FRB commercial banking contract moneys, which are also provided to other local agencies as intrastate transfers. E) Consumers' stolen moneys go into state revenue coffers, obtained from ATs as hot payments on: City/county property/water assessment taxes; city/county water, sewer, garbage; local/state courthouse fees, costs and fines; state revenue sales taxes; and state gross receipt sales taxes. FRB managing agents are: Elected governors, sheriffs, mayors, city council members, county commissioners; appointed federal agency directors/presidents, who all implement, manage and oversee FRB sting operations within their jurisdictions. FRB subordinate agents who commit the sting operations are: Cops, but mainly judges and NCUA/FDIC administrators, who knowingly commit the same exact, routinely used, HSF scam on consumers to intentionally profit their FRB enterprise. Consequently, FRB subordinate agents working in the field, make their entire den of thieves liable for compensation owed to their victims, especially all the FRB principle-masters within the FRB, WB and IMF!

John, many co-conspiring ATs were illegally authorized by many of your FRB subordinate agents, to illegally save or parlay my family's stolen and owed moneys, specifically from 3/2021 to present, within the FRB world economy, on either: State sales taxes; state gross receipt sales taxes; city/county property/water assessment taxes; city/county water, sewer and garbage payments; local/state courthouse fees, fines, costs (public forums); and FRB goods and services provided by FRB mixed market, investment corporations, with stolen state tax revenues collected (both private and public forums). Taxes first go to state revenue coffers (public forums), then onto all local/state municipals (public forums) to pay FRB contract proceeds: 1) FRB accruing interest payments; 2) bond dividend payments; 3) financial management fees; and 4) investment service fees. Again, the total number of FRB mixed market, investment corporations worldwide which ATs either save, or

transfer (trade or invest) consumers' stolen moneys within for equity or profit, is so VAST (in the millions per country), that they're ALMOST ALWAYS initially deposited into FRB bank accounts. So stolen moneys are immediately available for FRB enterprise use about 95% of the time, after ATs either deposit or transfer stolen spoils within the FRB world economy, using FRB supercomputer banking systems/networks. Proving where stolen moneys go after this point, isn't necessary when all requirements for RICO cause of action claims against any FRB principle-master, have already been met! **Under RICO, all the FRB principle-masters are considered the same entities as their enterprise and divisions/corporations/structures.** The FRB enterprise includes all foreign FRB principle-master colleagues within both the WB and IMF. The FRB enterprise consists of millions of structures and dozens of principle-masters/owners, all located throughout the world, but only one (1) enterprise.

All the FRB masters easily, frequently and intentionally cause all types of consumers both physical and monetary injuries for profit and gain due to: A) Being master economists and principle racketeers, operating their enterprise from within their multitude of mixed market, investment corporations, who understand the value of owning and controlling all the world's natural resources, **INCLUDING HUMANS**, along with all the world's manufacturing, distributing and retail sales networks, for providing FRB goods and services to every industry operating out of every sector in the world when needed by FRB victims, after sustaining FRB injuries; B) the FRB masters and their managers controlling the amount consumers are monetary and physical injured by their agents, thus affecting the amount of hot profits within its investment portfolio. How badly consumers are injured determines how much the FRB masters profit; and C) the FRB monetarily funding all local/state and federal agencies to support all elected and appointed FRB managers, directors, presidents, along with their subordinate agents

breaching their fiduciary duties owed to consumers by injuring them (physically & monetarily) at their discretion from within commerce based agencies/forums as required/sanctioned agency policy (illegal)! How many local sheriffs working out of populated counties, live in multimillion dollar homes with millions USD stashed, after receiving huge federal perks from the FRB, DEA, ATF and Homeland Security (HS), when they're only supposedly paid civil servant salaries? **The answer is every one of them, because they do such an excellent job of taking the bankers' cattle to market (cattle drives)!**

Elected and appointed FRB managing agents implement, protect and enforce the FRB enterprise's defrauding scheme as standard agency policy, by using both extortion (threat of being fired or losing one's bar license) or coercion/bribery (salaries & perks) tactics, to obtain results from every subordinate agent operating in the field. If the FRB masters can have their subordinate agents working within law enforcement, NCUA/FDIC and courthouses, launder or steal consumers' moneys in excess of their monthly spending allowance, they can make them spend their savings too within the FRB world economy. In 3/2020, I filed multiple causes of action under the RICO Act within the 10 year statute of limitations on the owners of the corporations listed below for their agents having racketeered continuously with local FRB judicial agents as one (1) enterprise, with the purpose of keeping moneys owed to me and my wife permanently in FRB CIRCULATION. I sued these owners because 1) they were rich enough to pay me and my wife what they owed us without declaring bankruptcy, and because 2) I hadn't yet figured out who else was profiting from our stolen moneys, due to illegal FRB agent involvement in AT CONVERSION/INTERFERENCE FRAUD SCAMS, where FRB agents were profiting UNKNOWN ATs, until I followed our stolen moneys from the ATs to the FRB, **NOW AN ENTERPRISE!** I wanted to find out WHY so many state/federal judicial agents had defrauded us and other plaintiffs to illegally profit UNKNOWN

ATs. What I found was a HIGHLY profitable, yet HIGHLY ILLEGAL, interconnected relationship between the FRB and its agents, along with the ones between the FRB and its ATs/vendors, both groups receiving perks/bribes from the FRB, with consumers' stolen moneys knowingly being transferred in CIRCLES to every participant over and over again! Even the relationships between agents and unknown ATs/vendors, were interconnected because the FRB was supporting both groups/gangs, with the paid FRB agents, blatantly profiting the unknown ATs/vendors, by officially facilitating/finalizing their CONVERSION/INTERFERENCE FRAUD SCAMS, but ultimately profiting the FRB a WHOLE LOT MORE THAN THE ATs!!!! 1) The ATs/vendors get to save, spend or invest 100% of the money owed to consumers, within the FRB global economy, and 2) the FRB already made at least 300% profit off the sale of each good sold to each AT/vendor during each CONVERSION SCAM. Then with consumers repurchasing the items or services not received, the FRB gets to make at least another 300% profit off the sale of any replacement goods sold.

This makes the FRB principle-masters the proximate cause of the two (2) step interconnected conversion fraud scams which first profits the ATs/vendors (fences), then it EXPONENTIALLY PROFITS the FRB enterprise (buyers) using its agents to finish injuring consumers, only after complaints are officially filed. If FRB agents didn't scam consumers, the FRB enterprise wouldn't be able to be sued through its FRB owners for racketeering! And there wouldn't have been any mentally deranged reasoning on your part John, to have believed it was a good idea to falsely incarcerated me while MURDERING MY WIFE!!!!

1. Federal court case 20-CV-78, valued at \$4.1 million USD,

with the racketeering AT owners and their agents working out of the following corporations:

A. Willow Bay, owner of ABC, Inc. (ABC), monetary damages from all court related RICO/antitrust injuries from 6-21-18 to 3/2020,

B. Donald Trump (DT), monetary damages from all court related RICO/antitrust injuries from 5-16-18 to 4/2020 and a Title 18, Chapter 216, Section 3333(a)(1) & (2) investigation into the Trump Administration (TA) and its affiliated Department of Justice (DOJ), U.S. Supreme Court (USSC) & Federal Bureau of Investigation (FBI),

C. CNA Insurance Company (CNA), monetary damages starting from case 14-CA-10278 related RICO/antitrust injuries on 2-6-15 to 3/2020,

D. Florida Lawyers Mutual Insurance Company (FLMIC), monetary damages starting from case 14-CA-12257 related RICO/antitrust injuries on 1-24-18 to 3/2020,

E. Axis Insurance (AI), monetary damages starting from case 17-CA-4051 related RICO/antitrust injuries on 1-16-18 to 3/2020,

F. Chart Industries Inc. (CI), monetary damages starting from case 17-CC-403 related RICO/antitrust injuries on 2-7-18 to 3/2020,

G. Free Methodist Church of North America (FMCNA), monetary damages to Mr. Schneider starting from case 17-CA-6219 related RICO/antitrust injuries on 5-25-19 & to Mrs. Kimball on 10-28-19 to 3/2020,

H. Agency for Community Treatment Services (ACTS), monetary damages to Mr. Schneider starting from case 17-CA-6219 related RICO/antitrust injuries on 8-23-18 & to Mrs. Kimball on 10-28-19 to 3/2020.

2. In the beginning of 2020 John, we talked about my mother's murder being covered up by FRB agents (local sheriff and chief judge). Multiple local FRB trial judges had been ordered by their chief judge to misappropriate (steal) my inheritance to continue

profiting the FRB enterprise through my mother's murderers (ATs)! Then in 2021, I and my wife's moneys owed to us by ATs, were both laundered and misappropriated by your federal judicial agent, Jon Levy, on 3/2021, case 20-CV-78. This case was against ATs who owed us compensation beginning in 7/2012 for conversion/interference scams, but had been profited from local FRB judicial agents, committing HSF along with mail/wire frauds. The illegal dismissal of this case cost my family \$4.1 million USD! **Unless these ATs were stashing their spoils inside mattresses forever, all the moneys owed to us were completely used/depleted by your enterprise John, during and after Jon Levy's bogus ruling!**

3. After 3/2021, another FRB continuation of damages occurred during my local case 21-CC-019331 (property damages) worth a mere \$2,300 USD, but resulted in the illegal dismissal of my related local case 21-CA-001798 (physical damages), worth another \$190,000 USD.

4. In late 2021, another FRB continuation of damages occurred, this time it was implemented by you John, using FRB enterprise agents to commit RETALIATORY ACTS against me and my wife, in violation of Title 18, Chapter 73, Section 1513 (e & f), similar to violations committed under the Whistleblower Act, by deliberately injuring us in violation of our 4th, 5th, Xth and 14th federal constitutional rights. It was initially committed on us using HS, a federal agency the FRB enterprise funds/bribes through its appointed director. Since the FRB masters OWN AND CONTROL this bankrupted country, without it ever really having had any independent democratic oversight to protect consumers' rights, the FRB enterprise has recently decided to step up its consumer based sting operations and finally start running this country like a real fascist dictatorship, by increasing its hot monetary funding/bribes going to all of its managers, directors, presidents and subordinate agents, to increase their fleecing consumers to the bone marrow for increased FRB

proceeds! This is why most managing FRB agents live in million dollar homes, supposedly only earning public servant wages! **I have all the evidence needed John, to ABSOLUTELY PROVE all the FRB masters knowingly and intentionally participate with FRB agent accomplices in defrauding consumers, violations of both state and federal constitutional laws, using a well-known and well-patterned defrauding scheme within two (2) different types of commerce based forums, ALL DAY LONG!** I believe, no I know, you implemented your revenge on me John through Barack Obama, who in turn gave the order for my being HIT to the director of HS, and when this agency couldn't find anything it could legally arrest me on after monitoring my computer for months, it used local lesbian mayor, Jane Castor to implement and manage your sting operation on me and my wife, using her local cops operating in the 1) correct jurisdiction to illegally violate me on the charge you wanted; and to 2) make my wife live on the streets to be agent murdered! How much was Jane perk paid indirectly through HS to be your FRIEND John? **Being as ruthlessly as hell, and completely loyal to whoever's paying her perks, makes Jane your kind of nutter.**

This resulted in **YOUR** bogus criminal charge John, case 22-CF-002324-A, being filed on me through Jane's office. **No official, even in a queer and delusional state of mind, would've filed this complaint on their own.** You made me spend 225 days in jail with my wife unable to come home after being illegally detained for 3 weeks. Then my wife was ordered not to go home and to live on the streets by weirdo Jane and her accomplices working out of other local agencies as fronts for your FRB enterprise. **Your enterprise's involvement in this matter resulted in my false incarcerated while my wife was intentionally chased into a crosswalk, when she had the right-of-way, to be intentionally hit by a moving car on 8-19-23, at 3:40am, as one (1) of your agent cops**

from an unknown law enforcement agency, sat in the passenger seat of a police cruiser and filmed the event with his handheld camera for you to watch at your leisure! Then my wife was taken to an FRB funded hospital (Tampa General Hospital (TGH)) where you had her FINISHED OFF JOHN! This same hospital, owned by John Couris, after 14 months of arguing with it, still refuses to give me my wife's medical records, so I can obtain more details surrounding her murder. Federal case 24-CV-1033, with Judge Steele presiding, was asked by me to assist in local case 24-CA-7358, because a murder was committed and FRB agent Alissa Ellison presiding, refused to order the full video of my wife's murder, along with her TGH medical records, from opposing parties (The chief judge was constructively notified by USPS certified mail # 9589071052700561543067). This federal case was then illegally transferred by Judge Steele, to the Tampa division (completely different venue) where another federal agent (Judge Jung) had his magistrate illegally deny the complaint, so there'd be no judicial obligation to investigate my wife's murder (case 24-CV-2626)! **WOW! Whenever a consumer's complaint is officially filed on an FRB owed, or invested in, entity, it's illegally dismissed by an FRB agent, so there aren't any FRB monetary losses!**

Don't have your agents try to MURDER me again John, because with the magnitude of evidence I have on your enterprise, already compiled and ready to be disclosed to the world rather quickly and easily, thousands of lawsuits will be filed on you under the RICO Act! Most of this evidence is in my RICO complaint, which any one of my relatives will be filing in my place, should you succeed in having me murdered too John. After it's filed, your enterprise can have my wife's medical records released from TGH, an FRB invested in, and profited by, corporation, to me and American/foreign press agents. I for one will be suing a couple FRB enterprise owners for

an additional \$50 million (a conservative amount owed to me) on: 1) My false incarceration; 2) survival action claim, for the FRB enterprise making my wife live on the streets for 2 years; and a 3) wrongful death claim, for the FRB enterprise murdering my wife! Culpable negligence foreseeably resulting in death, is an aggravated manslaughter violation (FS 782.07(1)).

This is not the proper time or medium to tell you what I think of you John, but I'll tell you this much: All the FRB masters are like cancerous growths, producing foul and disgusting odors, which should've been surgically removed from society and burned to ash decades ago. They're all habitual lying losers, who never made an honest living selling quality products or services, so they're method of staying in the black has always been to leach off the rich; steal from the poor; and bribe the greedy; using easy money to entice both officials and consumers into swindling gimmicks which got them their seed money. Any association which bribes greedy and corrupted agents with millions USD each, can get away with scamming consumers out of their valuables. **Not much intelligence is needed to do this John, but it's extremely obvious!** Your kind blatantly deals from the bottom of half deck of cards while laughing in their victims' faces for increased self-esteem. I truly believe all the FRB masters are nothing but sneaky stupid thieves working out of dens of inequity, with demon aliens talking to them from inside their heads. **How many are in yours John?**

I contacted you John in the beginning of 2020, asking for your help in having my mother's caregivers indicted for murder, because your bought and paid for president (Donald Trump) refused, but you too refused to help, stating you wouldn't unless I was your FRIEND! So obtaining a favor from you is only possible, after one is owed by you. It figures you'd want compensation first before remedying the problem your

enterprise caused to illegally profit and gain. I then threatened to sue you in the enclosed letter, only because you failed to stop your agents from defrauding me and my family. **How many other consumers do you think have the intelligence and nerve to put your enterprise on notice to divest or be sued under RICO? The answer is millions, once informed of the facts in this letter! You should've given me back my inheritance when I asked you nicely, but now you're going to look like a madman thief and murderer! You see, you already murdered my wife, so now I don't care what else you do Johnny Boy!!!!**

How unimaginative you were in having me falsely incarcerated for ironically being my wife's negligent caregiver, or was it your boy Barack who thought of this lame plan? **Murderers!!!!** Your charge against me was filed without any material evidence to substantiate any crime having been committed by ANYONE! **If your agents had no intention of planting incriminating evidence in our house to arrest me on, like my wife's dead body, then they had no business executing your deficient plan which made YOU look INVOLVED, SCARED and DEFINITELY DESPERATE!** For the past 35 years, FRB subordinate agents have increased the number of U.S. constitutional right violations committed on Americans, so now every consumer is routinely defrauded out of both their freedom and money as standard agency practice by NCUA/FDIC agents; agent cops; and agent judges for increasing FRB enterprise profits and gains. **I know you wanted me to know it was you John who both falsely incarcerated me and murdered my wife for that punitive slap across my face. So now here we are, at the point in which all your crimes finally catch up with you at age 88. I bet when you wake up in the morning and look in the mirror, you're happy, pleased with what you see, and this disturbs me to the point I'm now going to make it my personal priority to see to it your enterprise is legally put out of business.**

The next time around, don't have government agents whose illegal involvement with me can be traced back to you and your enterprise, and just bring over as many family members as you think you'll need to stop me from obtaining justice, and we'll have it out amongst ourselves, with some dignity and integrity like real men John. Or just hire some assassins to do your dirty work for you, like your gutless relatives did, when they didn't quite control every American agency back in the 60s. **With the sheer number of related HSFs committed by FRB agents, violations under Title 18, Chapter 63, Section 1346, who concurrently commit mail and wire fraud violations under respectively Title 18, Chapter 63, Sections 1341 & 1343, all the FRB masters are UNEQUIVOCALLY on the hook for compensation owed to just about EVERY American, even if they didn't know their agents were defrauding 10s of millions of consumers per year!**

Imputation serves various functions. It creates incentives for principals to choose their agents wisely. See Restatement (Third) of Agency, *supra* at § 5.03 comment b, at 360. It also encourages principals to supervise their agents and to share information with them. *Id.* The ultimate purpose behind these rules of imputation, however, is to fairly allocate risks between principals and innocent third parties. As explained in *Kansallis Fin. Ltd. v. Fern*, 421 Mass. 659, 664-665, 659 N. E. 2d 731 (1996).

Kansallis:

"Standing behind [the] diverse concepts of vicarious liability is a principle that helps to rationalize them. This is the principle that as between two innocent parties -- the principal-master and the third party -- the principal-master who for his own purposes, places another in a position to do harm to a third party should bear the loss. A principal who requires an agent to transact his business, and can only get that business done if third parties

deal with the agent as if with the principal, cannot complain if the innocent third party suffers loss by reason of the agent's act. Similarly, the master who must put an instrument into his servant's hands in order to get his business done ... must also bear the loss, if the servant causes harm to a stranger in the use of that instrument as the business is transacted." (Citations omitted.) *Merrimack Coll. v. KPMG LLP*, 480 Mass. 614, 108 N. E. 3d 430, 438 (2018). An employer's liability via respondeat superior "arises simply by the operation of law (Kansallis) and is only derivative of the wrongful act of the employee." *Merrimack Coll. v. KPMG LLP*, 480 Mass. 614, 108 N. E. 3d 430, 438 (2018) (quoting *Elias v. Unisys Corp.*, 410 Mass. 479, 573 N.E. 2d 946, 948 (1991)).

Principle-masters having consciously shared in the RICO plan, whether or not they directly participated in any of the RICO predicate acts committed, makes them as liable as the their agents who committed the crimes! Supreme Court of the United States in *Pinkerton v. United States*, 328 U.S. 640, 66 S. Ct. 1180, 90 L. Ed. 1489 (1946). This also means that when RICO predicate acts are committed in furtherance of a conspiracy under Title 18, Chapter 96, Section § 1962(d), any member of the enterprise who only consciously shared in either the 1) RICO plan, or 2) the RICO predicate acts committed afterwards, who turned a blind eye to either one and remained an indirect participant once constructively notified, is still liable for damages equal to the principle accomplices who committed the injuries, and can be held liable themselves for compensation under Title 18, Chapter 96, Section § 1962(a owner, b manager or c perpetrator), depending on what their positions were within the enterprise.

Pinkerton v. United States, 328 U.S. 640 (1946), which held that a defendant could be held liable for a substantive offense committed by a co-conspirator as long as the 1) offense occurred within the **course of the conspiracy**, was 2) within

the **scope of the agreement**, and 3) could reasonably have been **foreseen as a necessary or natural consequence of the unlawful agreement**. United States v. Alvarez-Valenzuela, 231 F3d 1198, 1202 (9th Cir. 2000); United States v. Henry, 984 F.3d 1343, 1355-1356 (9th Cir. 2021). Leaders of criminal organizations can be held liable under RICO for crimes they order others to commit, or assisted in committing, in furtherance of the ongoing criminal organization (Title 18, Chapter 96, Section 1962). **John, by you and your associate banking syndicate owners all over the world, continuing to racketeer with each other for satisfaction, profits and gains, after just one (1) of its member owners is constructively notified of the crimes his or her agents committed, only turning a blind eye to them and continuing to indirectly participate in obtaining billions USD of stolen spoils each quarter, is EVIDENCE that your worldwide consortium of thieves, ABSOLUTELY has an AGREEMENT among ALL its owners and agents about defrauding consumers, and isn't ever going to stop, because it enjoys maximizing AT/consumer profits, which can only come from stealing and murdering them!**

At least 50% of poor naive courthouse patrons paying for equitable relief to be granted under either state or federal laws by presiding judges, will have some portion of properties owed to them, laundered/misappropriated to ATs'/bankers (claims partially denied). These illegal rulings happen to: 1) permanently keep consumers' stolen moneys in FRB circulation to be completely assimilated into the FRB enterprise's worldwide economies; and so 2) consumer victims will have to spend their savings on the same goods and services they already spent their monthly allowance on, thus forcing at least double amounts of their moneys into FRB circulation. This total amount is a staggering 600% to 2000% of pure profits going to the FRB enterprise on

repeat purchases. Thus consumers' stolen moneys are either AT saved, spent or invested 95% of the time within the FRB's global economy, with even the stolen taxes from AT/consumer purchases of goods being funneled to the FRB enterprise through state revenue coffers, then onto municipals and FRB banks! The FRB enterprise most definitely and absolutely by this time, has acquired, used and depleted all of my laundered/misappropriated moneys owed, from the past 12 years without a statute of limitations, due to it having been involved in implementing two (2) racketeering scams on me and my family, which **ABSOLUTELY** resulted in two (2) of my family members being murdered as part of the FRB enterprise's scheme to derive illegal profits from our injuries!!!!

The result of imputation is that the principal bears the legal consequences of the agent's conduct. Thus if an agent with actual or apparent authority enters into a contract with a third party, the principal will be bound by that contract. See, e.g., *Linkage Corp. v. Trustees of Boston Univ.*, 425 Mass. 1, 4, 17, 679 N. E. 2d 191, cert. denied, 522 U.S. 1015, 118 S. Ct. 599, 139 L. Ed. 2d 488 (1997) (university bound by agreement signed by vice-president where vice-president had apparent authority). And if an agent negligently injures a third party while acting within the scope of their employment, the employer will be held vicariously liable for that negligence. See, e.g., *Dias v. Brigham Med. Assocs., Inc.*, 438 Mass. 317, 323, 780 N. E. 2d 447 (2002) (corporation could be held vicariously liable for alleged medical malpractice of its physician-employee). *Merrimack Coll. v. KPMG LLP*, 480 Mass. 614, 108 N. E. 3d 430, 438 (2018).

The Master/Agent/Consumer RICO Relationship:

The FRB enterprise has all of its paid local/state elected

municipal, managing agents in America, under contract to collect and transfer consumers' stolen revenues as proceed payments on: 1) Loans; 2) bond purchases; 3) financial management services; and 4) investment services. So remittance payments made from agencies to the FRB owners through their banks, knowingly uses consumers as the source of surety/collateral on FRB agency funding, because consumers' moneys are FRB required/sanctioned to be agent stolen to pay for this funding. WOW! And WOW! So it's pretty well understood within the FRB enterprise, consumers are the ones under contract, not agencies, to produce the masters' ever accruing proceeds on demand, and if consumers object to being browbeaten and robbed, they're FRB injured even worse, by agents imposing illegal jail sentences on them and murdering their family members, like the FRB enterprise did to me!!!!

An enterprise's greed, results in racketeering for increased money, control and power. And racketeering results in both physical and monetary injuries to victims, along with their wrongful deaths when maximizing profits. **How many billions John have the FRB masters murdered to maximize enterprise profits and gains?** If your enterprise intentionally racketeers to profit and gain illegally from injuring consumers, and someone foreseeably dies during a RICO predicate act committed by its agents, you and the other principle-masters within the same enterprise, who weren't constructively notified of having received and use the stolen fruits of your agents' labor, are STILL as guilty as your agents under the Respondeat Superior; Vicarious Liability; and Imputation Doctrines, for the murder without a statute of limitations imposed on BOTH it, AND the racketeering committed during the murder! **In the 1970s, the FRB enterprise wanted the RICO Act implemented into law to rid itself of its mobster competition. So now that the FRB owners operate their**

sting operations from within every consumer based forum, located within every sector of America, without any interference, by being the only governing bodies of both the economy and government agencies, your **MASSIVE MONOPOLY** is on the hook for everything committed in violation of both state and federal laws while its agents racketeer, including murder John! The statute of limitations for committing a murder, or aiding and abetting one after the fact by covering it up (respectively under Title 18, Chapter 95, Section 1959 & Title 18, Chapter 1, Section 3), is tolled indefinitely. Just how many FRB murders have you personally overseen John, and who were the victims besides my wife?

Millions of consumers already know who the FRB OWNERS are. They also know that ATs officially got away with having STOLEN THEIR MONEYS due to crooked GOVERNMENT AGENTS at the NCUA/FDIC and/or local COURTHOUSES having illegally APPROVED their losses while laughing at them. All that's missing is for your picked to the bone CATTLE, to finally make the MENTAL CONNECTION that it was a QUASI-GOVERNMENT, FRB LAUNDROMAT SCAM, to allow ATs to steal their moneys, with the FRB AGENTS having authorized the loot to be AT PARLAYED within the FRB GLOBAL MONOPOLY, where FRB ENTERPRISE profits are at 300% to 1000% (averaging 500%) by TRADING WORTHLESS CRAP to ATs, with FRB ENTERPRISE profits averaging between 600% to 2000%, when consumer victims have to make repurchases of what they already paid for, with even their tax dollars being funneled into ITS OPEN ARMS, and your enterprise is SO DONE John!!!! By looking at the massive amounts of related and patterned HSFs committed by your multitude of subordinate agents, working harder than ever now days to benefit your enterprise, by causing consumers both physical and monetary injuries, especially during my 22-CF-

002324-A & 20-CV-78 court cases, with you and your enterprising colleagues illegally profiting from their ATs; subordinate agents; and mixed market, investment corporations, makes your enterprise, ABSOLUTELY, POSITIVELY, liable for every one of its victims' monetary losses **along with my wife's murder!** Racketeering resulting in an agent being culpably negligent in someone's death (the knowledge of death possibly occurring), makes every one of the FRB owners also guilty of aggravated manslaughter. **But my wife's death wasn't just a foreseeable conclusion during a racketeering conspiracy, but was the result of a conspiracy to murder both of us as part of YOUR retaliatory plan using YOUR FRB enterprise John. You tried to murder me and my wife using FRB enterprise agents John! This makes YOU, YOUR AGENTS AND YOUR COLLEAGUES also guilty of intentionally murdering my wife, because murdering consumers to maximize benefits, is what all the FRB owners routinely do for a living! You should've hired assassins John, then we'd BOTH be dead!**

5. On 7/2023, another FRB continuation of damages occurred causing me to be monetarily injured when Mayor Jane Castor's dirty corrupted cops, kicked open my family's front door WITHOUT a search warrant and planted an illegal drug and ammunition inside our house, so they could falsely incarcerate me for another 4.5 months, keeping my wife on the streets long enough to murder her!!!! I and my attorney have the film which proves Jane Castor's cops, staged evidence inside my house. This evidence allowed my false charges to be dismissed, but only after the FRB enterprise murdered my wife!!!! Your subordinate agents MURDERED my wife John, after they damaged/stole \$20,000 USD of our properties from inside our house for spite, some of which cannot be replaced!

6. On 5/2024, another FRB continuation of damages occurred, causing me to once again be monetarily injured when a bogus

NCUA ruling, supposedly legally allowing one of your enterprise's investment corporations, MasterCard (Deutsche banking syndicate), NOT to reverse my 3 banking transactions worth \$4,500 USD. When consumers file DISPUTE CLAIMS with the NCUA/FDIC, it commits HSFs concurrently with mail/wire frauds, stating in writing that the complaints received were supposedly filed as FRAUD CLAIMS, but when you correct either one of these agencies, by constructively notifying one of its presidents (Todd Harper) as I did, claims are still DISMISSED ANYWAY! It's VERY OBVIOUS that banking administrators blatantly defraud consumers, so the FRB enterprise can profit from private affiliate unions; banks; and FRB credit card companies, by ATs being illegally allowed to keep stolen proceeds already in FRB circulation, until they're exhausted! The only reason for SO MANY officials (millions) blatantly breaking the law, is because they're being bribed to do so by their superiors, or be terminated and ostracized from ever working in their professions again. Correct? ABSOLUTLY!!!!

7. On 1-23-25, another FRB continuation of damages occurred, causing me to once again be monetarily injured when a bogus verbal ruling made by Judge Alissa Ellison, local case 24-CA-7358, cost me a medical malpractice lawsuit against FRB funded TGH, reasonably worth \$7 million USD. After intentionally dragging her feet for 4 months, Alissa Ellison refused to order the records requested in a Pure Bill of Discovery, stating on 1-23-25, she wasn't going to order my wife's medical records for me (spoliation of evidence), because the applicable Florida statute clearly states I'm not allowed to obtain them. **WOW! THIS WAS A HUGE LIE! So who was behind it????** Currently Florida Statute 395.3025(1) states - - If a personal representative has NOT been appointed, then "the next of kin of the decedent" is ALLOWED to obtain the decedent's medical records!!!! So this was CLEARLY another FRB agent, abuse of discretion committed on me, that resulted in my having to constructively notify the FRB chief judge, informing him that

another FRB paid/bribed agent had committed a murder cover-up, so the FRB enterprise could keep/transfer/use/deplete more FRB agent misappropriated moneys owed to me, this time through its funded TGH corporation, but he only turn a blind eye and remained a silent participant in the fraud! TGH's neurosurgeon was off the weekend my wife was transported there, so 1) she shouldn't have been transported there by FRB paid, county EMTs and 2) FRB funded TGH, should've immediately transported her to another hospital to perform the needed surgery using its helicopter! The FRB enterprise funds TGH through the governor's office (Medicaid), the University of South Florida (USF) and through federal Medicare, with TGH under contract to trade for many FRB goods and services! No doubt Judge Ellison was **A)** illegally covering up the FRB murder of my wife, by NOT first ordering her medical records to be used in investigating it, because she already believed an FRB paid/bribed division of law enforcement was involved in her murder (The murder video was already in the case file); and to **B)** keep FRB funds in TGH circulation by illegally denying me the evidence needed to sue TGH for medical malpractice within the time limit. My injures due to pain and suffering against TGH are reasonable worth \$7 million USD as a very sound medical malpractice claim, not to be confused with a combination of wrongful death and survivor action claims, reasonably worth \$50 million USD filed against the FRB enterprise! **The main point is, FRB judicial agents Alissa Ellison and Chris Sabella, along with their attorney accomplices, aided and abetted their FRB enterprise in committing a RICO Act violation under the HSF statute, to permanently keep FRB enterprise moneys owed to me, within TGH as one of its funded/investment corporations!**

8. Another FRB continuation of damages occurred, causing me to once again be monetarily injured when my wife age 41, died on 8-21-23 (3.5 days later) due to a head injury which went UNATTENDED TO by FRB funded TGH!!!! This caused my wife to lose U.S. social security benefits. If she had lived, and she was

extremely healthy, she would've reasonably lived to at least age 75. So 34 years left to live, at \$12,000 USD per year income (A sound estimate on both years lived and income), is \$408,000 USD in FRB derived savings owed to me, her next of kin, who's allowed to sue the FRB enterprise under the RICO Act in her place. A physical injury can be caused by an HSF, and it can equate to FRB derived profits, committed as a RICO violation under Title 18, Chapter 96, Section 1961(1) (A - G), which includes a retaliatory act under Title 18 U.S.C., Chapter 73, § 1513(e & f). My wife's FRB implemented murder, profited the FRB through one of its funded agencies (social security), by not having to dispense her SSI benefits each month, a steady and permanent source of income to her, thus her benefits are now profiting the FRB in savings, due to it having racketeered/murdered. There's a time limit for filing wrongful death & survival action claims, but not on suing under RICO for monetary losses when a murder was involved. G. INST. 4.112-13 (F. de Zulueta trans., 1946) (addressing survival); id. at 6.189-215 (discussing the scope of delicts for multiple damages); Title 18, Chapter 232, Section 3663; and United States v. Payne, 591 F.3d 46, 57-59 (2d Cir. 2010).

All of my court cases from 2012 to present, were illegally dismissed by FRB paid judicial agents when jury trials were demanded, who used very obvious wrong matters of fact and/or law, **while blatantly laughing in my face, as if they wanted me to know I was being intentionally defrauded and not to foolishly waste my time ever filing another lawsuit again.** Common law rulings and determinations have been made substantiating a judge's order to be void when this happens. Qualified immunity does not protect officials who are plainly incompetent, or knowingly violate the law." Malley v. Briggs, 475 U.S. 335 (1986). Where there were either errors of law, or clearly erroneous factual findings not within the range of permissible judicial decisions, abuses of discretion were committed (Rabkin v. Oregon Health Sciences Univ., 350 F.3d 967, 977 (9th Cir. 2003); Fed. R. Civ. P. 52(a)(6); and United

States v. Cazares, 121 F. 3d 1241, 1245 (9th Cir. 1997). Thus common law findings rule out a onetime (1) judicial error, or a onetime (1) personnel defrauding of disliked party by one (1) judge due to spite. Any co-conspirator with deep enough pockets who participated under Section § 1962(d) (Pinkerton Liability Doctrine for RICO criminal matters), and under Section § 1962(a owners, b managers or c perpetrators), is open game for being sued in federal court under the RICO Act to obtain triple the compensation owed. When FRB contracted/salaried/perk/bribed service based government agents within the NCUA/FDIC, law enforcement and courthouses along with their attorney accomplices, blatantly defraud the same consumer two (2) or more times, a breach of fiduciary duties has occurred called HSFs, amounting to a RICO violation.

Consequently when two (2) or more judges apply the wrong law and/or fact a total of two (2) or more times to illegally dismiss the same, or two different parties' court cases, resulting in both parties being defrauded to benefit the **same enterprise**, especially when a judicial manager/supervisor was also constructively notified, but turned a blind eye, **any reasonable person wouldn't believe multiple judges somehow became incompetent and in need of caregivers**, but were sanctioned to defraud both parties to benefit the same enterprise, especially when both judges' superiors (chief judges) and an FRB principle-master were constructively notified of the substantive due process right violations (civil right violations under both state and federal constitutions), but turned blind eyes when asked to stop the racketeering from continuing, only remaining participants. John, you were constructively notified in 12/2020, and again today, of this type of racketeering scam being used to profit you and your enterprise! Will your enterprise finally divest what it owes me, or be sued by many?

The total money owed to me before RICO claims are filed is \$4,724,800 USD. After 30 days, this amount goes to

\$14,174,400 USD when the lawsuit's filed. My murdered wife, who I miss every hour, can never be replaced, nor my being adequately compensated for this type of lose! My false incarceration, along with her wrongful death and survival action claims, are reasonably worth **\$50,000,000 USD.** **John, your enterprise currently owes me \$54,724,800 USD.** This money means nothing to me. I hope I'm not paid, so I can watch thousands of victims whose relatives your enterprise defrauded to death all over America, file RICO lawsuits on the FRB enterprise to put it out of business!!!!

John, you've been a pain in my back, side, head and neck for the past 2 years, responsible for decades under the Respondeat Superior; Vicarious Liability; and Imputation Doctrines as the head FRB benefactor/beneficiary who implements consumer defrauding schemes on Americans using your subordinate agents, which all the FRB principle-masters knowingly profit from! All FRB agents within America receive their office accommodations; positions; salaries; perks; and considerations for the purpose of injuring consumers; required to do so by their superiors **as a 21st century, customary practice!**

The FRB enterprise has funding and management/investment service contracts in place with all American municipals! **"What we do is help publicly funded entities of all sizes manage their finances to run more efficiently, so they can allocate resources to better serve their communities."** And **"Chase accepts government Deposits from Coast to Coast."** These are exactly what your ads state John. So this confirms the FRB enterprise, which includes all your colleagues abroad, have blatantly open ended contracts with American agencies through at least your banking syndicate, operating within the same enterprise, to obtain never ending flows of consumers' illegally obtained properties. **Yes illegal!** Do elected FRB managers have the right to knowingly use

consumers' stolen moneys (principles & taxes), in violation of both state and federal constitutional laws, just because ATs/bankers were OFFICIALLY approved by the NCUA/FDIC and judicial agents to continue using stolen moneys by placing official SEALS on bogus/void rulings? **Absolutely not! Do the principle-masters of the FRB, WB and IMF, who OWN America, have the right to operate above its laws by using consumers' stolen properties as forfeiture/arrear/repayments on the 1933 American bankruptcy bailout? WOW!!!! Very sneaky, but still stupid illegal! Until the U.S. Constitution is formally voided, you don't have the right to use citizens' stolen money for anything John! Even kings had to abide by the rules. How history repeats itself:**

Centuries ago, justice was an important source of income for kings. Most of the English kings took a genuine interest in justice, but there was no getting away from its value as a SOURCE OF REVENUE. So King John of England would accept offers from lords (the wealthy) who wanted to make sure he took their view of what justice was. **But your enterprise, Banker John of Ohio, takes in a hell of a lot more illegal moneys than it would from court case bribes. 1) The FRB enterprise takes in an average of 500% profit on all goods purchased by ATs using consumers' stolen money, with most defrauded consumers having to make repurchases, which doubles the FRB enterprise's profits to about 1000%; and 2) 100% of moneys owed to consumers that are agent misappropriated, due to interference type torts, profits the FRB enterprise by this same amount! In my court case 20-CV-78, the amount FRB agent Jon Levy stole from my family was \$4.1 million USD! This was 100% of the money owed to us by the ATs, which were already being used within the FRB global economy during and after our being judicially scammed! I was judicial agent scammed, 50 times over 12 years, and will have NO PROBLEM proving the FRB enterprise**

both A) knowingly initiated the frauds and B) knowingly obtained all my stolen moneys!!!!

So your enterprise John, really turns about \$80 cents per USD of hot AT transfers, into PURE (500%) profits by trading SUBPAR goods and services offered at PREMIUM PRICES within your global monopoly for good LOOT, and most ATs have no idea they're part of your enterprise. **EXTRAORDINARILY SLICK!**

The principle of "Rule of Law" asserts that no one, including kings or those in positions of power, is above the law. This principle aim was to ensure that everyone is subject to the same set of laws and that no one is immune from the consequences of their actions. **Magna Carta was a political settlement between King John and his barons. The barons, who forced it on John, stopped him from taking bribes from the rich to illegally mediate court cases in secret! In those days, either court case party (defendant or plaintiff) was defrauded out of rightfully/legally winning due to the king's paid/bribed judicial agents committing HSFs. The king ONLY received the bribes, with either party receiving the judicially laundered/stolen moneys! Back then, barons were in the same position as elected U.S. congressmen and senators, but weren't bribed yet using FRB lobbyists, and this is why the barons agreed to fight their king.**

Which banking syndicate owners formed the FRB enterprise at Jekyll Island, Georgia in 1910, is irrelevant to proving all current FRB masters make up one (1) enterprise of RICO participants who defraud consumers using their agents mainly within banking administrations and courthouses. **What counts in court under the RICO Act, is showing a decades old repetition of stolen/owed moneys being ultimately laundered/misappropriated to the FRB enterprise by contracted/paid/bribed government agents (conspiracies committed), with their masters knowingly profited**

(results successful). NO PROBLEM! Thus a cause of action has been established in this documented letter. Who gets sued, is the participant with the deepest pockets. Where else do consumers' stolen moneys come from, and go to, after they're FRB merchant processed (held/saved), or FRB transferred (spent/invested) within the FRB global economy by ATs, but to either an FRB, WB or IMF master's investment corporation!!!! If you take in a border, then you're constructively notified the border is wanted by cops for committing a crime, but you only turn a blind eye, you're now an aider and abettor after the fact to the crime your border committed. **What the FRB enterprise has been doing for decades John, IS A WHOLE LOT WORSE! It aids and abets crimes before they're committed by bribing all its elected and appointed managers, with their salaries and perks into signing off on multiple contracts to perform, using its subordinate agents who are required to routinely commit scams on consumers, so all its owner colleagues within the FRB; WB; and IMF can count on agencies making their huge, hot remittance payments on time! Thus FRB banking contracts, are the mediums used for illegally funneling consumers' stolen moneys to the FRB enterprise using municipals! All of this is absolutely, positively, verifiable! You can't hide the fact all FRB enterprise spoils come from ATs and consumers! And you can't hide the fact that at least 50% of all official complaints filed on ATs, result in consumers being defrauded to some extent by FRB agents! As I stated before John, even if you didn't know your agents were defrauding consumers, due to those three (3) legal doctrines cited in this letter, you and your colleagues are still on the hook to compensate FRB victims for RICO injuries sustained.**

All that's needed for any consumer to file a completely credible RICO cause of action claim on any FRB owner, or

their associate/accomplice anywhere in the world, is by showing they were scammed out of their U.S. constitutional rights by an FRB subordinate agent with property losses sustained. Nothing else is need, but to show the relationship, purpose, pattern and motive for the MASTERS and their AGENTS having racketeered against consumers at least twice (2). No problem John! When the FRB defendants get their complaints and then have their attorneys boldly deny the facts with obvious lies (highly illegal in federal court), everyone who reads the published court case articles online, will also be filing RICO lawsuits against the FRB enterprise (power in numbers).

Any attorney/analyst looking at all my court case records, would absolutely, positively, determine I was FRB enterprise defrauded for 12 years out of all the properties owed to me, after I paid for equitable relief within commerce based forums! Consequently, the FRB principle-masters and their accomplices knowingly benefited/profited from laundering/misappropriation scams committed by their agents.

Just by the FRB masters merely knowing their managers and agents are working hard at defrauding consumers to profit their enterprise, means that any negligent act any one of them commits in the process, makes every FRB participant liable to every victim for every type of injury sustained. **You crossed the line when you had my wife murdered John! How will your enterprise be paying off this debt?**

Enclosures: (2)

My wife's filmed execution, given to me by one (1) of at least three (3) fired and missing agent cops who were involved, and my 12/2020 letter to you John.

cc: Networks gearing up

P.S. A legacy of shame, dishonor and immense debt is what comes to mind when I hear the sir names Rothschild and Rockefeller. Make up whatever aristocratic titles you wish to call yourselves, but after your clan stole their last trillion, and murdered their last million, to say it's notorious for being chuck-full of some really bad career criminals, would be a gross understatement!
